Caponago, 15th July 2013

Compliance of the Ritrama Products with:
2011/65/EU (RoHS/WEEE Heavy Metals/Restricted Substances)
EN71/3:2002 (Safety of toys — Part 3: Migration of certain elements)
94/62/EC (Packaging Essential Requirements)

Dear Valued Customer,

On the basis of the declarations received from our raw material suppliers we can confirm that all the Ritrama products, with the exception of the products made using our standard gloss red vinyl film, are in compliance with the following directives:

- EN 71/3:2002 and 94/62/EC;
- EU Directive 2011/65/EU (“RoHS” Directive, restricting PBB’s, PBDE’s and the heavy metals Cd,Hg,Pb,Cr (VI) in electrical and electronic equipment)
- European Court of Justice judgment of April 1, 2008 that the European Commission introduced in granting exemption to DecaBDE in the above RoHS Directive.

Furthermore, Ritrama does not add any of the above substances during the coating process.

This statement concerns only self adhesive laminate manufactured within the Ritrama Group. It cannot apply to any subsequently converted versions of Ritrama products. For example – printed labels based on Ritrama laminates.

We trust that this information will meet your requirements, please contact us again if you require further details.

Kindest regards,

Luciano Galli
